Adaptive enterprise vision

Business and IT synchronized to capitalize on change

The diagram illustrates the adaptive enterprise vision through three horizontal layers:

- Business processes:** Includes 'Extend & link' with 'Suppliers', 'Employees', and 'Customers'.
- Applications:** Includes 'Architect & integrate' with 'Simplify, standardize, modularize, integrate'.
- Infrastructure:** The base layer.

Vertical metrics on the left and right sides of the diagram are:

- Left: Measure & assess (time, range, cost)
- Right: Manage & control (resources, advice, risk)

April 21, 2004

2

Adaptive enterprise design principles

- Simplify**
 - Reduce number of elements
 - Eliminate customization
- +**
- Standardize**
 - Standardize processes and resources on a foundation of innovative, modular building blocks
- +**
- Modularize**
 - Break down monolithic structures
 - Create reusable components
- +**
- Integrate**
 - Manage the dynamic link between business and IT
 - Connect apps and processes inside and outside
 - Automate change

Applied consistently across:

- Business processes
- Applications
- Infrastructure

April 21, 2004 3

CIO challenges

Handwritten notes on a chalkboard:

- circled word: *economics*
- top left: *it's all about IT features*
- top right: *improving quality of service - mandatory*
- center equation: $ITe = cost \downarrow + quality \uparrow + risk \downarrow + agility \uparrow$
- bottom left: *customers need to mitigate risk!*
- bottom center: *enhanced business agility*
- bottom right: *MUST reduce cost of change*

HP server and storage portfolio

The world's broadest, most robust enterprise offering

	Industry standard servers	Traditional RISC servers	StorageWorks
Access	ProLiant Servers Integrity Servers NonStop Servers	HP9000 servers Alpha servers	- Tape and optical storage - Storage arrays and NAS - SAN infrastructure, software, media
Application			
Database			
Multi-OS			
	Management Services		

April 21, 2004 6

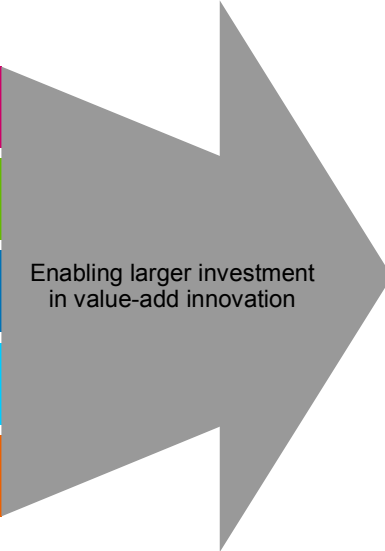

Moving to 3 leadership product lines— built on 2 industry-standard architectures

Current

- HP NonStop servers
- HP Integrity servers
- HP 9000/E3000 servers
- HP AlphaServer systems
- HP ProLiant servers

Enabling larger investment
in value-add innovation

Future

Industry standard	Value-add innovation
HP NonStop (Itanium®-based) servers '04	Consistent technologies
HP Integrity (Itanium®-based) servers	<ul style="list-style-type: none"> • HA • Clustering • Virtualization
HP ProLiant (IA-32-based)	<ul style="list-style-type: none"> • Management • HP StorageWorks

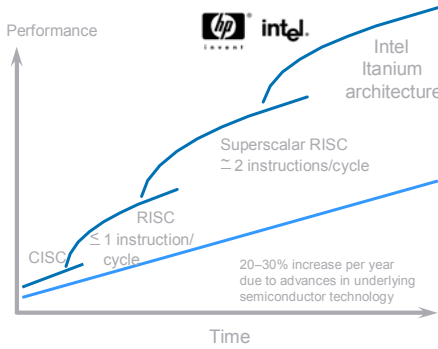

April 21, 2004 7

HP Integrity Servers: the platform that delivers more

- Flexible and “future-proof” infrastructure
 - Platform for the next 20 years
 - Multi-OS “redeployable”: HP-UX 11i v2, Windows, Linux, OpenVMS
 - 2-way to 64-way systems, all based on the high-performance Intel® Itanium® 2 processor
- Full ecosystem including services across the IT lifecycle

Intel® Itanium® architecture is the new generation:

Performance vs. Time

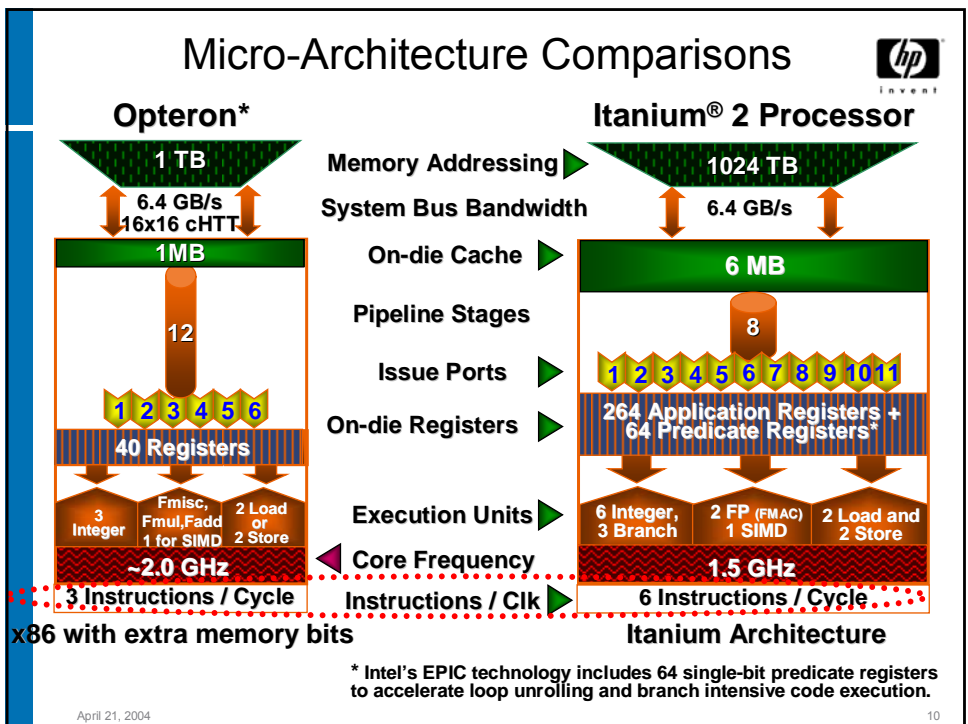

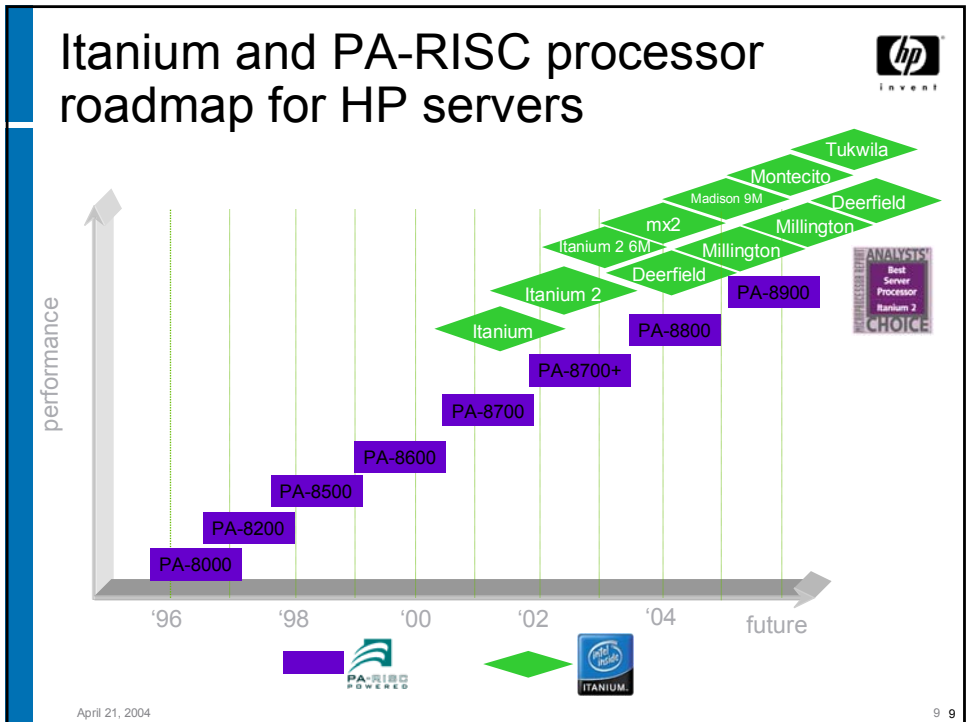

- Intel Itanium architecture
- Superscalar RISC ≈ 2 instructions/cycle
- RISC ≈ 1 instruction/cycle
- CISC

20–30% increase per year due to advances in underlying semiconductor technology

Extending the adaptive enterprise with industry standards, unique value

April 21, 2004 8

Itanium® Architecture: Optimized for performance growth

- Parallel execution leadership: only Intel has all 3:**
 - Multi cores on same die
 - Multi threads on same core
 - Explicit Parallelism in each core
- EPIC*: inherent advantages for multi-core, multi-thread**
 - Architecture: Parallelism + many registers to keep data on-chip
 - Core size: Smaller than IA-32, up to 2X more cores per die on Tukwila (than on IA-32)

Itanium® Processor family delivers >2X Moore's Law performance

* EPIC is Itanium's architecture "Explicitly Parallel Instruction Set Computing"

All products, dates, and figures are preliminary and are subject to change without notice.

April 21, 2004

11

Lowering the Itanium® platform cost

- Lowest Cost of Ownership**
 - Platform Cost** = +30%-60% in '04
 - ~0% in '07+
- Today: Itanium exceeds RISC performance & price / performance**
- Today: Itanium platform delivering superior price / performance vs Xeon™ on transaction processing**
 - 30% more transactions at 10% incremental cost of platform/ OS / DB**
- Enabling technologies to achieve Itanium® platform cost parity with Xeon™ platforms by '07**
 - Common platform components to lead to common platform infrastructure over time

*Data based on Intel projections

***'04 Price based on comparable OEM systems

By 07, Itanium® platform up to 2X Xeon™ platform in:

- Enterprise & technical application performance
- Number of cores / die
- Price/ performance

** 30%-60% or higher. Based on web pricing: 4P Xeon processor MP & Itanium platforms (2.4GB RAM) from Ion Computer, 2P platform (4GB RAM) from Dell

All products, dates, and figures are preliminary and are subject to change without notice.

April 21, 2004

12

HP Integrity Servers: the broadest line of Itanium®-based systems

CPUs			
64	HP Integrity Superdome server		Up to 64-way scalability and hard-partitioning capability for leading consolidation - Up to 64 Intel® Itanium® 2 processors - Up to 512 GB memory - 192 PCI-X slots (with I/O expansion) - Up to 16 hard partitions
16	HP Integrity rx8620 server with server expansion unit (SEU)		16-way scalability and hard-partitioning capability for consolidation - 2- to 16-way Intel Itanium 2 processors - Up to 128 GB memory - 32 PCI-X slots (with SEU) - Up to 4 hard partitions - 2 servers per 2m rack
8	HP Integrity rx7620 server		8-way flexibility with high-performance, density, and partitioning capabilities - 2- to 8-way Intel Itanium 2 processors - Up to 64 GB memory - 15 PCI-X slots - Up to 2 hard partitions - 4 servers per 2m rack
4	HP Integrity rx4640 and rx5670 servers		4-way high-performance servers in ultra-dense and highly scalable models - 1- to 4-way Intel Itanium 2 processors - Up to 64 and 96 GB memory, resp. - 6 and 9 PCI-X slots, respectively - 10 and 5 servers per 2m rack, resp.
2	HP Integrity rx2600 and rx1600 servers		2-way ultra-dense, power-packed server redefines entry-level computing - 1- to 2-way Intel Itanium 2 (rx2600) or Low Voltage Itanium 2 (rx1600—1.4 and 1.0 GHz; rx1600—1.0 GHz) processors - 1U (rx1600) and 2U (rx2600) form factors - Up to 24 GB memory - 4 PCI-X slots - 20 servers per 2m rack

April 21, 2004 13

HP Integrity and HP 9000 Server Roadmap

	Current offering	2004	2005	Revision 3.1 Mar-04 2006
	HP 9000 Superdome		CPU: PA-8900 (dual-CPU) OS: HP-UX 11iv1, v2, v3*	New Chipset CPU: PA-8900 OS: HP-UX
4-128P	HP Integrity Superdome	CPU: mx2 dual processor module OS: HP-UX11iv2, Windows	CPU: Itanium2 9M OS: HP-UX11iv2, Windows, Linux*	CPU: Itanium2 "Montecito" New Chipset OS: HP-UX 11iv2, v3* Windows, Linux, OpenVMS
	HP 9000 rp7410-8, rp8400-16, rp7420-16, rp8420-32		CPU: PA-8900 (dual-CPU) OS: HP-UX 11iv1, v2, & v3*	New Chipset CPU: PA-8900 OS: HP-UX
2-32P	HP Integrity rx7620-8, rx8620-16	CPU: mx2 dual processor module OS: HP-UX11iv2, Windows	CPU: Itanium2 9M OS: HP-UX11iv2, Windows, Linux*	CPU: Itanium2 "Montecito" New Chipset OS: HP-UX 11iv2, v3* Windows, Linux, OpenVMS
	HP 9000 rp4440-8		CPU: PA-8900 (dual-CPU) OS: HP-UX 11iv1, v2, v3*	
	HP Integrity rx4640-4	CPU: mx2 dual processor module OS: HP-UX11iv2, Windows, OpenVMS*	CPU: Itanium2 9M OS: HP-UX11iv2, Windows, Linux*, OpenVMS	CPU: Itanium2 "Montecito" OS: HP-UX 11iv2, v3* Windows, Linux, OpenVMS
	HP 9000 rp3440-4		CPU: PA-8900 (dual-CPU) OS: HP-UX 11iv1, v2, v3*	
	HP Integrity rx2600-2		CPU: Itanium2 9M OS: HP-UX11iv2, Windows, Linux*, OpenVMS	CPU: Itanium2 "Montecito" OS: HP-UX 11iv2, v3* Windows, Linux, OpenVMS
	HP Integrity rx1600-2		CPU: Low voltage Itanium2 (+) OS: HP-UX 11iv2, v3*, Windows, Linux, OpenVMS	CPU: Next Gen Low voltage Itanium2 OS: HP-UX, Windows, Linux, OpenVMS

Thinframes not to scale
Plans subject to change
All upgrades "in-box" except as noted
*Not available at initial processor release

4/21/2004 14

What's happened since the last HP Integrity Server launch in November?

- 5X increase in 2003 of the Itanium®-based server market (units and revenue)
- New 1U HP Integrity rx1600 server (1.0 GHz)—less than \$3000 entry
- HP Integrity rx2600 servers with low-voltage processors (1.0, 1.4 GHz) for less than \$5500 entry
- XC cluster nodes, Lustre file systems
- HP InfiniBand products (available March '04)
- HP operating systems update
 - Linux: leverage rx1600/rx2600 entry price for volume market
 - HP-UX 11i v2: continued momentum with ISVs & customer adoption
 - Microsoft Windows: broader availability and adoption
 - OpenVMS: on schedule, second evaluation release now available
- Performance leadership
 - TPC-C (HP-UX 11i v2, Linux, MS Windows), 10 TB TPC-H, SAP SD (2-tier, 3-tier), SPECjbb, SPECjAppServer, and Hyperion

April 21, 2004 15

HP Integrity Servers provide added benefits to existing operating environments

	Robust, mission-critical solution with added performance and virtualization	Choices in <ul style="list-style-type: none"> • Operating environments • Types of systems • When to adopt new technology • Applications • Scale-up and scale-out Benefits <ul style="list-style-type: none"> • Standardization • Streamlined operations • Future-proof • Increased asset utilization • Consistent support levels
	Unparalleled scalability, performance	
	Industry standard for 64-bit	
	Bulletproof, secure, feature rich, reliable, investment protection	

April 21, 2004 16

HP-UX 11i v2 momentum continues with recent HP Integrity Server achievements

Gaining customer adoption

- Across broad industries: Sai Global, University of Oslo, CitiStreet, Otto

Growing the ISV ecosystem

- 99+% top commercial ISVs committed
- Now! All leading databases
- Now! Leading BI, ERP, NSP, and middleware portfolio

Extending performance leadership

- OLTP: First to break 1 million tpmC
- Java: #1 SPECjbb2000 & SPECjAppServer, etc.
- ERP: #1 SAP SD

Robust, mission-critical-ready foundation for the adaptive enterprise

HP-UX 11i v2

Virtualization (VSE)

High availability

Manageability

Windows Server 2003 Editions

- Target: Datacenters, large RDBMS, LOB apps, DW
- 32-bit, support for up to 32-way SMP & 64 GB RAM, HT
- 64-bit, support for up to 64-way SMP & 512 GB RAM, IA-32 EL
- 8-node clustering, NUMA, WSRM (resource manager)

- Target: Medium to large enterprises, LOB apps, DB
- 32-bit, support for up to 8-way SMP & 32 GB RAM, HT
- 64-bit, support for up to 8-way SMP & 64 GB RAM, IA-32 EL
- 8-node clustering, NUMA, WSRM (resource manager)

- Target: Small or departmental environments, enabling basic file and print and collaboration
- 32-bit, support for up to 4-way SMP & 4 GB RAM, HT
- 64-bit, support for up to 4-way SMP & 32GB RAM, IA-32 EL*

- Target: Built for Web serving and hosting, platform for rapidly developing and deploying Web services and apps
- Support for up to 2-way SMP & 2 GB RAM
- Hyper-Threading

Windows Server 2003 Family

April 21, 2004
18

HP Integrity Servers offer unprecedented and sustained performance leadership

Across diverse workloads
(TPC, SAP, Java, Oracle apps, SPEC CPU, and SPECweb99_SSL)

Across multiple operating systems
(HP-UX 11i v2, Linux, Microsoft Windows)

Across multiple servers
(Superdome, rx5670, and rx2600)

Legend: HP (orange), IBM (grey), Sun (green)

Relative performance

Workload	HP	IBM	Sun
TPC-C	+7%	???	???
SPECjbb	+82%	-8%	-8%
LINPACK	+75%	-44%	-44%
TPC-C	+150%	???	???
OASB	+14%	-6%	-6%
SAP SD 2-tier	+52%	+6%	+6%
SPECint	+91%	-9%	-9%
SPECfp	+100%	-9%	-9%
SPECfp	+142%	+42%	+42%

2001	1.0
2002	2.0
2003	4.0
2004	7.5

April 21, 2004 23

Key applications that customers need are available today!

1500+ ISV applications available now for HP Integrity servers:

- Key HP-UX 11i v2, Windows, and Linux ISVs in place
- Very strong business intelligence, ERP, and middleware portfolios
- Over 600 applications from over 280 ISVs committed to OpenVMS for HP Integrity servers
- More each week

HP has a complete program for continued aggressive recruitment of ISVs to the HP Integrity family

To help achieve customers' success, HP has a defined "must win" process to complete a customer's ISV solution stack if an application is not yet available

April 21, 2004 24

HP Integrity rx1600 and rx2600 Servers

HP Integrity rx1600 Server

New 1U server

- 1U form factor
- 1–2 Low Voltage “Deerfield” Intel® Itanium® 2 processors
- HP zx1 Chipset
- Below \$3000 entry price (U.S. list)
- February 2004 availability
- Ideal for HPTC, telco, security, and access tier
- HP-UX 11i v2, Linux, OpenVMS

HP Integrity rx2600 Server

New lower-priced 1.4 and 1.0 GHz processors

- 2U form factor
- HP zx1 Chipset
- 1–2 Low Voltage “Deerfield” or standard “Madison” Intel Itanium 2 processors
- Below \$5500 entry price (U.S. list)
- Available NOW
- Ideal for enterprise application tier, remote offices, and HPTC
- HP-UX 11i v2, Linux, Windows, OpenVMS

April 21, 2004
25

HP Integrity rx4640 Server At-a-glance

HP Integrity rx4640 server

- 1- to 4-way Itanium® 2–based system
 - 1.5 GHz (6 MB cache)
 - 1.3 GHz (3 MB cache)
- Up to 64 GB memory
- 6 available PCI-X slots
- 10 servers per 2m rack

Unsurpassed OS support

- Runs HP-UX 11i v2, Linux, Windows Server 2003, and OpenVMS (2H 2004)
- Broad choice of applications

Unmatched performance density

- Rack-dense 4U chassis
- Blazing fast HP zx1 Chipset
- Performance comparable to the HP Integrity rx5670 server

Easy to install and service

- Fast, “no-tools” rack installation
- Quick Find LED diagnostic panel accelerates problem isolation
- Designed for “no-tools” customer repair with swap-out components

Solid high availability

- Redundant, hot-plug power supplies, fans, and hard disk drives
- HP Serviceguard for HA clustering

Leading rapid deployment

- Available site prep, installation, and custom configuration

Excellent investment protection

- IT-Box upgradable to future Intel® Itanium processors, including the HP mx2 dual-processor module

April 21, 2004
26

HP Integrity rx5670 Server At-a-glance

HP Integrity rx5670 server

- 1- to 4-way Itanium® 2–based system
 - 1.5 GHz (6 MB cache)
 - 1.3 GHz (3 MB cache)
- Up to 96 GB memory
- 9 available PCI-X slots
- 5 servers per 2m rack

<p>Broad OS support</p> <ul style="list-style-type: none"> • Runs HP-UX 11i v2, Linux, and Windows Server 2003 • Wide choice of applications 	<p>Unmatched 4-way performance</p> <ul style="list-style-type: none"> • Rack-dense 4U chassis • Blazing fast HP zx1 Chipset • #1 benchmark results for TPC-C, SAP SD 2T, Oracle Apps, and more 	<p>In-box upgrade from HP 9000</p> <ul style="list-style-type: none"> • HP 9000 rp54xx PA-RISC servers can be upgraded to become rx5670 Itanium 2–based systems via in-box upgrade

April 21, 2004 27

HP Integrity rx7620 Server At-a-glance

HP Integrity rx7620 server

- 2- to 8-way Itanium® 2–based systems
 - 1.5 GHz (6 MB cache)
 - 1.3 GHz (3 MB cache)
- 64 GB memory
- 15 PCI-X slots
- 1 removable media device (DAT/DVD)
- 4 internal disk drives
- 2 core I/O
- Up to 2 hard partitions

<p>Unsurpassed OS choice</p> <ul style="list-style-type: none"> • Runs HP-UX 11i v2, Windows Server 2003 (1H 2004), Linux (1H 2004), and OpenVMS (2005) • Supports multiple operating systems in the same server • Unmatched application choice 	<p>Complete investment protection</p> <ul style="list-style-type: none"> • In-box upgradable to future generations of Intel® Itanium and PA-RISC processors (including dual-core CPUs) • In-box upgradable to future high-performance chipsets 	<p>Broad utility pricing offerings</p> <ul style="list-style-type: none"> • Pay per use* • Pay per forecast* • Instant capacity on demand* • Temporary capacity on demand* • Cell iCOD* <p><small>* HP-UX 11i v2 only</small></p>
<p>Unmatched high availability</p> <ul style="list-style-type: none"> • Best core high-availability technologies • Full Uptime Institute certification 	<p>Optimized physical specifications</p> <ul style="list-style-type: none"> • Leading 64-bit performance density • "No-tools" accessibility and serviceability 	<p>Leading rapid deployment</p> <ul style="list-style-type: none"> • Free site prep and installation • Free custom configuration

April 21, 2004 28

HP Integrity rx8620 Server At-a-glance

HP Integrity rx8620 server

- 2- to 16-way Itanium® 2-based systems
 - 1.5 GHz (6 MB cache)
 - 1.3 GHz (3 MB cache)
- 128 GB memory
- 16 PCI-X slots
- 4 internal disk drives and 2 removable media devices (DAT/DVD)
- 2 core I/O
- Up to 2 hard partitions

Server expansion unit (SEU)

- 16 PCI-X slots
- 4 internal disk drives and 2 removable media devices (DAT/DVD)
- 2 core I/O
- Enables up to 2 additional rp8400/rx8620 hard partitions
- 9U height (fits in same rack as rp8400/rx8620 server)

Unsurpassed OS choice

- Runs HP-UX 11i v2, Windows Server 2003 (1H 2004), Linux (1H 2004), and OpenVMS (2005)
- Supports multiple operating systems in the same server
- Unmatched application choice

Complete investment protection

- In-box upgradable to future generations of Intel® Itanium and PA-RISC processors (including dual-core CPUs)
- In-box upgradable to future high-performance chipsets

Broad utility pricing offerings

- Pay per use*
- Pay per forecast*
- Instant capacity on demand*
- Temporary capacity on demand*
- Cell iCOD*

Unmatched high availability

- Best core high-availability technologies
- Full Uptime Institute certification (for both rx8620 and SEU)

Optimized physical specifications

- Leading performance density
- "No-tools" accessibility and serviceability

Leading rapid deployment

- Free site prep and installation
- Free custom configuration

* HP-UX 11i v2 only

April 21, 2004 29

HP Integrity Superdome Server At-a-glance

HP Integrity Superdome

- 2- to 64-way Itanium® 2-based system
- 512 GB memory
- 192 PCI-X slots
- Up to 16 hard partitions
- Concurrent multi-operating system support
- Ideal for multi-OS consolidation
- Balanced record of performance across a variety of benchmarks

Unsurpassed OS choice

- Runs HP-UX 11i v2, Linux, Microsoft Windows Server 2003 Datacenter Editions, and OpenVMS (2005)
- Supports multiple operating systems in the same server simultaneously
- Unmatched application choice

Complete investment protection

- In-box upgradable to future generations of Intel® Itanium processors (including dual-core CPUs)
- In-box upgradable to future high-performance chipsets

Broad utility pricing offerings

- Pay per use*
- Pay per forecast*
- Instant capacity on demand*
- Temporary capacity*
- Cell iCOD*

* HP-UX 11i v2 only

Unmatched high availability

- Best single-system high-availability technologies
- Outstanding high-availability clustering
- Full Uptime Institute certification

Redeployability

- Repurpose systems based on changing business needs enabled by multi-OS
- Minimizes IT risk

Leading rapid deployment

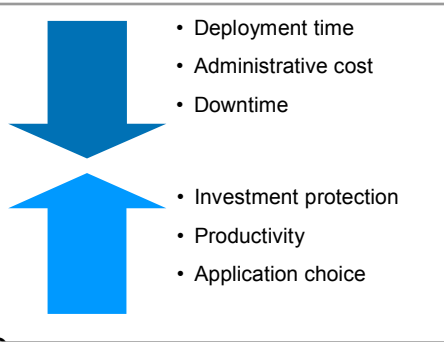

- Includes site prep and installation
- Includes custom configuration

April 21, 2004 30

HP Integrity Servers—better ROI

- Speedy deployment and time-to-deployment
- Protection of investment
- Availability of business applications and infrastructure solutions
- Utility computing, grid computing, and resource virtualization

Better ROI: Simple and fast integration with existing IT infrastructure, better utilization of assets, and extension of asset life

April 21, 2004
